FemLink Video Artwork Screening

On Saturday, June 14th, at 1:30 PM, we will host a viewing of a video artwork produced by the [Femlink Collective](#), represented locally by ArtsWorcester member C.M. Judge. FemLink links women video artists around the world and their work to produce video collages. One artist from each country creates a one to two minute video around a common theme. As videos are collected for the project, they are added to the collage sequentially as they are received without regard to content.

We will screen the FemLink collage, *Aggression* (approximately 45 minutes), which deals with attitudes around the topic of violence, forcefulness and assertiveness. Works in the collage include Vouvoula Skoura's (Greece) *In Memory of a 15 Year Old Boy* who was killed by a policeman in Athens, to the humorously frenetic tug-of-war video, *X on the Shore* by Japan's Hiroko Okada. C.M. Judge will host a Q&A afterwards.
