(Curator of Soemardja Gallery)

Cinematic Lab is a monthly video program of 30'feat and releases.  
Contact us for participating in the program at  
cinematic\_lab@yahoo.com, http://www.cinematiclab.com

For this June 2006, videolab co-operated with Reza Afisina ( Asung ) from ruang rupa to show the videoworks compilation of "Lupita's Collection" curated by **Rene Hayashi**, **Eder Castillo** and **Mike Rodriguez** from Mexico. "The idea of showing these video selections was to created a strategy for looking different places or countries where Mexican visual artist don't usually had shown there. In a way there's also possibilities to gain many information and sharing within the development of video as work or as a media for showing visual art works in everywhere."

And also, linked by Prilla Tania, we will show at the same time a video collection from **FemLink**, a video compilation from 32 female artists around the world, initiated by **Veronique Sapin** from France and **C M Judge** from USA. " Our hope is that our video collage may, as it is broadcast and widely exhibited, contributes positively in a just way to our diverse world."

Through the two above video collections, we will talk and discuss about the medium of video as one expression media of art, the flexibility and fragility of this medium these days. The talks will be guided by **Aminudin TH Siregar**, a curator from Soemardja Gallery, ITB and **Rene Hayashi**, one of the curator of Lupita's Collection.

Fyi, at the moment our partner **KINOKI** from jogya cannot realized our monthly program that usually show every month at their space. We hope, soon Kinoki and Jogja will recovery from all of the earthquake mess. Our new partners at this month are **space36x50x25** that belong to Soemardja Gallery, ITB and **TUK** in Jakarta through Paul Agusta and their film community.
