FemLink, the International Videos-Collage

These Short-Creative-Videoworks (SCVs) were each individually and specifically created by women video-artists from around the world, as curated together by Veronique Sapin, so as to create an essentially single overall video-collage, as a singular artistic video work. It is one of an ongoing series of such video-collages of the Femlink initiative.

We are grateful to Sara Malinarich, one of the included artists, for drawing Veronique Sapin and this video-collage into CeC 2012.
